NEW: Study in the States Resource Library

In March 2016, Study in the States launched a [Resource Library](#) that contains helpful visual aids and infographics. The Resource Library is designed to enable users to quickly find relevant resources.

Currently, the Resource Library contains 22 Study in the States branded resources. Resources are displayed in a list view with a thumbnail image and short description of each available item. There is also a button to view the resource in grayscale, if applicable. Users have the ability to filter through all of the resources by audience and topic, and may select multiple filters at once.

SEVIS by the Numbers Mapping Update

SEVP recently enhanced the [Mapping SEVIS by the Numbers](#) feature to provide users with additional options for viewing student population data. Users can now view statistics from a continent or a United States view. Page content will continue to be accessible on all browsers and mobile devices.
